Dear Mr Segalwe

My media queries from last week refer, and are quoted for your convenience below. A response from the PP by Wednesday close of business would be just in time for my final deadlines. I hope that you're able to assist by then? Please let me know

In March (or thereabout) 2012, the Public Protector office received a memo from [REDACTED], requesting an investigation. Please can you try help me confirm:

- What this memo requested the Public Protector to investigate (I am trying to corroborate my information)
- What course of action, if any, the Public Protector took in response to the request.
- What the outcome, if any, of the Public Protector's engagement with the request was.

With regards to Mr Maharaj's 2016 memos. I believe these were dated 18 and 22 August 2016, respectively. It is my understanding that they request an investigation into a very similar concern or allegation, related to the premature closure and completion of cases at some IPID provincial offices.

- Are you able to provide me with a copy of these memos?
- What was the PP's response to the memos? Was there an investigation instituted?
- What was the extent of the PP's office's engagement with these memos, and the allegations contained within them?
- What was the final outcome of the PP's office's engagement with these memos, and the allegations contained within them?

Furthermore:

- Please confirm whether there was another memo or request from Mr Maharaj or anyone inside the IPID related to this matter - the closure and/or completion of cases without proper investigation at the IPID - in **2014**, or **2015**?

Best,
Daneel
